

## JPL Podcast episodes now in print

**March 10, 2019**

Transcripts of some of the JPL Podcast's most popular episodes are now accessible to members.

So far, the Classroom Management K-6, Classroom Management 7-12, Special Needs in Mainstream Classes K-12 and Promotions Positions episodes have been transcribed.

Journal for Professional Learning editor Carly Boreland said the transcripts have been made available to support hearing-impaired members.

"They will also prove useful for members to review episodes and print and share in school-based professional development and discussion groups," she said.

The remainder of the podcast episode catalogue will be progressively transcribed.

The transcripts are available as PDF files. Follow the link to a particular episode from [cpl.asn.au/podcasts](http://cpl.asn.au/podcasts) and you will find the relevant file towards the bottom of the webpage.
